SANDER MARINE IS YOUR QUALITY SYSTEMS SUPPLIER

Congratulations! You have selected SANDER MARINE for reliable fluid management systems such as

- / **SANSYS control and monitoring system**
- / **SANCONTROL remote control system**
- / **SANVALUE tank level gauging system**
- / **SANFUEL bunker alarm system**
- / **SANHEEL anti-heeling system**
- / **SANFAST quick closing valve system**

We are certified
according to
ISO 9001: 2015
ISO 14001: 2015

As ship owner or manager your interest is not only the initial price of your newbuilding or second hand vessel but also the daily operating cost, maybe over the whole lifetime of the vessel.

As your perfect solutions provider SANDER MARINE offers a 24/7 spare parts hotline, quick delivery from warehouses in major shipping hubs and a global service network.

With our comprehensive range of tailor-made solutions we make your life easier: Avoid costly delays during cargo operations, expensive breakdowns of important equipment onboard your vessel and inefficient work of your crew!

Regardless of the original maker, SANDER MARINE provides service and conversion of complete liquid management systems.

SANDER MARINE: CUSTOMIZED SERVICE PACKAGES

/ Avoid mistakes: Crew training

First hand courses on efficient operation and maintenance of SANDER systems - onboard, at your place or at SANDER MARINE headquarters in Germany.

/ Ease of mind: Service frame agreement

Regular inspection visits of your SANDER equipment by our qualified engineers ensures perfect working status: Status analysis, preventive maintenance, advice for crew.

/ Predictable operating cost: Spare parts flat rate

Important OEM spare parts and consumables available within shortest time anywhere in the world.

/ No delays: Dry docking support

Avoid delays and bad surprises during dry docking: All relevant spare parts on stock in warehouse container – directly at the repair shipyard. Any unused equipment will be returned to our stock after dry docking. Can be combined with pre-docking inspection and evaluation.

/ Fastest delivery: In-house certification

Due to arrangements with major classes (DNV-GL, LR, RMRS, RINA) hull side valves with 3.2 certificates can be delivered without waiting time directly from our SANDER MARINE warehouse.

/ On the safe side: Extended warranties

Based on a service frame agreement we can significantly extend the warranty period for your SANDER MARINE systems.

SANDER MARINE WORLDWIDE

The Sander Marine is your one-stop solution provider for fluid management. The product range includes manual valves and fittings according to DIN, ANSI and JIS standard, most of which are available from stock. In-house certification according to DNV-GL, LR, RINA and RMRS class saves cost and reduces lead time for critical spare parts.

Based on warehouses as well as sales & service stations we can provide a quick and reliable spare parts supply and technical support in:

- / SWEDEN
- / GERMANY
- / SINGAPORE
- / DENMARK
- / NORWAY
- / DUBAI
- / INDIA
- / TURKEY
- / SPAIN
- / ROMANIA
- / RUSSIA

For new building vessels and retrofits we supply:
